Patterns we noticed

Possible patterns from the last 90 days. Not medical advice.

MEDIUM PRIORITY

Consider light daily activity

A 30-minute walk on low-step days may reduce migraine risk. Aim for 3,000 steps minimum.

DETECTED PATTERNS

Low activity — 23 Apr
1,538 steps the day before · threshold 3,000

Low activity — 26 Apr
934 steps the day before · threshold 3,000

Sleep < 6h — 27 Apr
